

Hadoop Issue Tracking

Table of contents

- 1 Common.....2
- 2 HDFS..... 2
- 3 YARN..... 2
- 4 MapReduce..... 2

Hadoop tracks both bugs and enhancement requests using JIRA.

We welcome input, however, **before filing a request**, please make sure you do the following:

- Search the Apache JIRA database.
- Check the users [mailing lists](#), both by searching the archives and by asking questions.

1. Common

Hadoop Common issues are tracked in the [HADOOP](#) Jira instance.

2. HDFS

HDFS issues are tracked in the [HDFS](#) Jira instance.

3. YARN

YARN issues are tracked in the [YARN](#) Jira instance.

4. MapReduce

MapReduce issues are tracked in the [MAPREDUCE](#) Jira instance.
