Hadoop Issue Tracking

Table of contents

1 Common	2
2 HDFS	2
3 YARN	
4 MapReduce	

Hadoop tracks both bugs and enhancement requests using JIRA.

We welcome input, however, **before filing a request,** please make sure you do the following:

- Search the Apache JIRA database.
- Check the users <u>mailing lists</u>, both by searching the archives and by asking questions.

1 Common

Hadoop Common issues are tracked in the **HADOOP** Jira instance.

2 HDFS

HDFS issues are tracked in the HDFS Jira instance.

3 YARN

YARN issues are tracked in the <u>YARN</u> Jira instance.

4 MapReduce

MapReduce issues are tracked in the MAPREDUCE Jira instance.
