Who We Are

Table of contents

1. Apache Hadoop Project Members

Please see individual sub-projects for lists of their committers. We only here list the members of the top-level Hadoop project.

We ask that you please do not send us emails privately asking for support. We are non-paid volunteers who help out with the project and we do not necessarily have the time or energy to help people on an individual basis. Instead, we have setup mailing lists for each sub-project which often contain hundreds of individuals who will help answer detailed requests for help. The benefit of using mailing lists over private communication is that it is a shared resource where others can also learn from common mistakes and as a community we all grow together.
